

# Ravindra della Bina

Sound Engineer & Percussionist

Ravindra is a creative and multifaceted sound engineer and musician.

Graduated from HMT Rostock percussion and drums together with Matias Mucchi, an artist with whom he collaborates for several years.

Over time he specialized as a sound engineer and this allowed him to have a deep understanding of music, of sound, of the instruments and of the intention with which it is done wants to stage a project.

He cares a lot about the research and expression of beauty in the world of art, in the awareness that every work, small or large, is a gift that is given to world.
